

September 9, 2017

Commissioners Scott, Oswald, Mcloud,

I am, respectfully, requesting that this letter be read into the next Kiowa County Commissioners' meeting minutes. There are several questions that beg answers for the Kiowa County Taxpayers.

- 1) What, if any monetary responsibility, do the taxpayers of Kiowa County have with Prairie Pines?
- 2) The Murdock Project is an ongoing expense. The August 10, 2017 Kiowa County Commissioners' meeting minutes recorded an approved additional \$4,440.00 for this project. What is the intended planned use of this building once the project is finished?
- 3) In the county budget that was printed in the Kiowa County Independent, recently, there was a line item for some \$2,000 plus for rodeo buckles and a line item \$1,000 for the Eads swimming pool. Could there have been other ways in which to raise this money and cover these expense?
- 4) Please explain, in detail, the connection and responsibility for the taxpayers of Kiowa County in the project mentioned in connection with Southeast Health Group and a unique and affordable modular building for a center in which to house twelve beds for clients.
- 5) At the time of the reading of this letter, are the sirens in Towner and Haswell now working?

Sincerely
Debbie Shivers
